Dear Homeowner

Thank you for considering a ProVia exterior door for your home. Whether you're looking for an entry or storm door, we know you desire the best performance, value, and curb appeal. You can count on ProVia for premium-quality products, manufactured using state-of-the art technology combined with old-world craftsmanship.

At ProVia, we truly care about our customers and our products. Every employee is committed to providing you with an exceptional experience, and we take seriously the trust that homeowners place in us to design and craft building products that excel in durability, energy efficiency, security, and long-lasting beauty.

Brian Miller President & CEO

PROVIA® BUILDS DOORS THE PROFESSIONAL WAY

ProVia has developed a competitive position by catering to a niche within the door market that demands a high degree of customization coupled with outstanding quality. Our company defines the products that meet this demand as "professional-class." We have found success by adhering to a set of core values that guide us as we develop rewarding, long-term relationships with our employees, customers and homeowners.

WHAT MAKES PROVIA PROFESSIONAL-CLASS?

ENTRY SYSTEMS **TAILORED** FOR YOUR HOME

Today's off-the-rack consumer-grade doors, which are mass-produced and not customized for your home, often fall short of expectations and performance.

These shortcomings are the driving force behind ProVia's custom entry doors, built to your home's exact measurements for a precise fit, protection, security, and energy efficiency. The materials that go into our custom-made doors are premium quality and exceptionally durable, far surpassing the ready-made doors at the big-box hardware stores, and our craftsmanship and care for details can be seen in each door we produce.

SECURITY | We ensure the strength and security of every door, so you have peace of mind and can focus on what's really important - your life.

DURABILITY | Crafted with the finest materials and backed by our Lifetime Limited Transferable Warranty, the durability of our products can't be beat.

BEAUTY | A beautiful ProVia entry system will always greet your guests with classic elegance and style.

ENERGY EFFICIENCY | Engineered to keep the elements at bay and your home comfortable all year long.

WE'RE BUILDING YOUR DOORS AND OUR
COMPANY TO LAST A LIFETIME-
THAT'S THE PROFESSIONAL WAY.

If you ask around, you'll find attention to detail is what our customers have come to appreciate and expect from the ProVia brand. Our company is family-owned and faith-based with an intense focus on producing Professional-Class products. ProVia feels so strongly about the performance and workmanship of our entry systems—built by skilled craftspeople with state-of-the-art manufacturing processes—that they are backed with a Lifetime Limited Warranty, which is even transferable to one subsequent owner.

ANATOMY OF **YOUR DOOR**

The components are the small things that set our doors apart from the competition. A lot of small things add up to a big difference.

Chateau
Legacy Steel
Tacoma Decorative Glass
Color Match Casing and Trim

Pieces & Parts

THRESHOLD

A threshold covers the entry door sill and provides protection against the elements. The threshold directs water flow out of your home by adding a slight slope towards the outside.

BULB & BLADE SWEEP

The bulb and blade sweep form a seal between the base of your door slab and threshold, virtually eliminating drafts and keeping your home comfortable year-round.

WEATHERSTRIPPING

Weatherstripping helps seal the gaps between a door slab and its frame, keeping moisture, wind and dirt out of your home.

EMBOSSING

Embossing is the raised or depressed design in the surface of your door which contributes to the overall style of your door.

SKIN

Fiberglass and steel door skins are available in a variety of textured and smooth options.

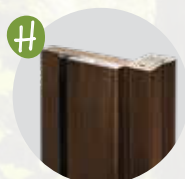

GLASS

ProVia offers many combinations and styles of glass to fit your door needs.

GLASS TRIM

High-performance, heat-resistant window trim is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications.

FRAMESAVER®

The door frame is the support around the sides and top of a doorway. ProVia offers four types of frame materials; FusionFrame® is our most popular.

HARDWARE

Entry door hardware includes different types of knobs, levers and locking systems that provide basic function, security and style.

STRIKE PLATE

A strike plate located on the door jamb provides extra security where the door latches, preventing unwanted forced entry.

HINGES

A hinge is a piece of hardware that allows the door slab to open and shut. The color of your hinges are typically matched to your door's hardware.

CASING

Casing is a type of trim designed to hide the gap between the door frame and the wall. A variety of styles and finishes are available to fit your style.

DESIGNING YOUR DOOR

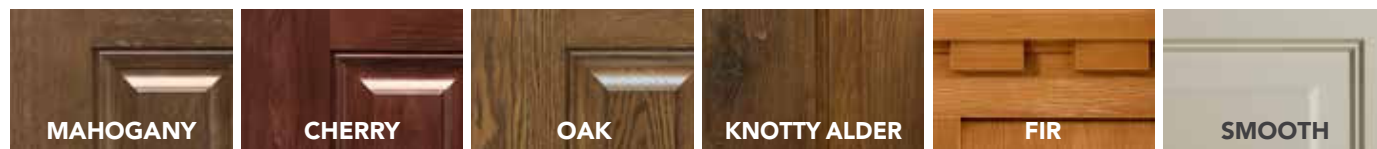

Imagine Your Entryway with a New Look. ProVia offers you endless possibilities to create a front door that provides a warm, welcoming entry to your home. To simplify the experience, we've categorized the selection process here to get you started. These ideas are just the beginning – you'll discover a myriad of additional color and style options throughout this catalog.

1 DOOR SKIN

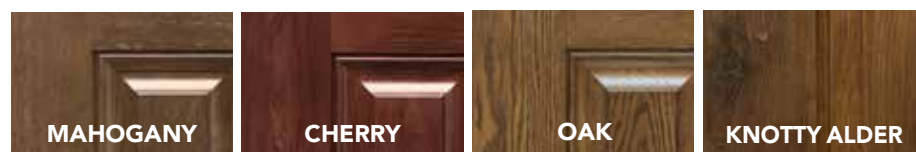

Fiberglass and Steel door skins are available in a variety of textured and smooth options.

2 CONFIGURATION

Find and customize a configuration that best fits the opening of your home.

3 DOOR STYLES

Your home should reflect your personality. That's why you'll find a wide selection of styles to suit your taste.

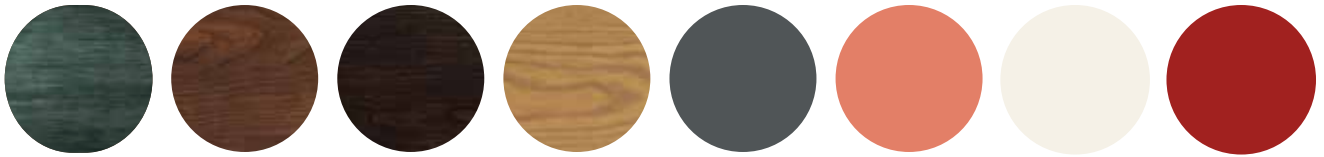

4 GLASS

Select from a full line of Decorative, Art, Clear and Privacy Glass, Simulated Divided Lites, Grid Styles & Internal Blinds.

5 FINISH

Our stain and glazed finishes are hand-applied by professional craftsmen, then oven-cured for maximum beauty. Paint finishes are factory applied for a long-lasting, durable finish.

6 HARDWARE & ACCESSORIES

Hardware from Trilennium®, Hoppe®, Emtek®, Brinks® and Schlage® provide some of the most stylish, durable hardware available today. Sometimes the smallest things make the biggest difference. Our accessories add a lot to the look of your entry system.

7 ADD A STORM DOOR

Protect, enhance and ventilate your entryway with a storm door, while adding an extra measure of security.

Know Your Style

DETERMINE THE ARCHITECTURAL CHARACTERISTICS OF YOUR HOME

Whether your architectural preference is traditional, modern, upscale, or low-key, ProVia® is sure to have an entry door style to suit your taste. A wide variety of materials, styles, finishes, and accessories allow you to design a beautiful, welcoming entryway that complements the design and character of your house.

For design inspiration, we've gathered a few architectural style characteristics and suggested a ProVia door to provide the perfect focal point for your front entrance.

The **Colonial** is one of the most popular traditional home styles in the United States. Rectangular in profile and symmetrical in design, Colonials are built with stone, brick, or wood and favor multi-paned, double hung windows, decorative pediments and columns, and pitched roofs. Indoors, the first floor usually houses the kitchen and family room, while the second floor is devoted to beds and baths.

Door: Legacy™ in Enzian Blue Painted Finish

The **Craftsman**, or 'California bungalow' style, is casual, un-ornamental, yet thoroughly charming. Generally constructed of rough-hewn wood, stone, or stucco, it features broad front porches, gabled roofs, and overhanging eaves. Indoors, you may often find simple yet stunning woodwork, such as exposed rafters, built-in shelving, and window seating.

Door: Signet® in Caramel Finish

Romantic and distinctive, **Victorian** homes are instantly recognizable with their steep gabled roofs, asymmetrical shapes, dormers, broad porches, and colorful facades. Features such as scalloped shingles, bay windows, stained glass, and ornamental woodwork impart a grand and glorious air to these extravagantly decorative homes.

Door: Signet in Hibiscus Painted Finish

Modern architecture is notable in its use of clean lines, asymmetric shapes, sustainable materials, flat or low-pitched roofs, large windows incorporating natural light, and open floor plans. Contemporary styles are often dynamic and untraditional, and part of their curb appeal is their ability to blend in with the surrounding landscape.

Door: Legacy in Goldenrod Painted Finish

Ranch-style homes convey simplicity and practicality with their efficient design. One-story or split-level floor plans, pitched roofs, brick exteriors, picture windows and attached garages are signature features of this architectural layout.

Door: Heritage™ in Sandstone Painted Finish

Cape Cod homes are typically one story and feature interior hardwood floors, multi-pane and dormer windows, clapboard siding, and a steep roofline. Often small in square footage and uncomplicated in structure, Cape Cods are simple, practical, and unfussy.

Door: Heritage in Walnut Stain

Distinguishing features of a **Tudor** home include a steep slate roof with multiple dormers and gables, mixed building materials and half timbers, large chimneys, tall, narrow, multi-paned windows, and decorative entryways. Tudor homes emanate a formal, stylized, affluent air.

Door: Embarq® in Chestnut Stain

architectural resources.

EMBARQ®

FIBERGLASS

Embarq is the most energy-efficient entry door system in the U.S. market, 43% thicker than standard doors and engineered with an integrated channel in the side rails and header to accommodate more insulating foam. It provides an impenetrable barrier against drafts and is ENERGY STAR® certified for efficiency.

CUSTOMIZE BOTH SIDES

You can customize your entry by ordering a different series, style and finish on each side of your door.

CUSTOM WIDTHS & HEIGHTS

Need a little more height or a little less width? We offer customized door and sidelite widths and heights in 1/8" increments.

INDUSTRY LEADING 15-YEAR FINISH WARRANTY

Most Embarq Fiberglass Entry Systems are ENERGY STAR® Certified.

Get Started

DOOR OPTIONS

ProVia proudly offers many styles and extras to fit the needs of your home.

INSCRIBED DOORS

Inscribed doors showcase the true richness of the Signet® Cherry fiberglass panel, and deliver a modern, elegant first impression. Custom designs and address numbers add a unique, contemporary look to your doorstep. Also available with three stainless steel inlay models.

Only available in flush Signet cherry doors

DOORS WITHOUT GLASS

If privacy and uncompromising security is your goal, choose a solid door with a completely smooth finish, or dress it up with a number of panels and grooves for a distinct, refined appearance.

EXTERNAL GRIDS

External Grids are ideal for customizing side and back doors, and garage service doors. Choose between several patterns and add character and depth to these entranceways.

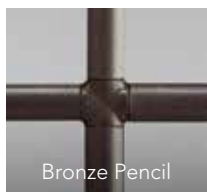

External grids will match the door's paint or stain color.

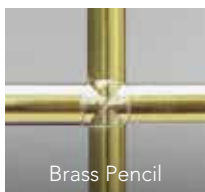

INTERNAL GRIDS

Internal Grids add style to your clear glass. Choose from pencil or contoured grids, available in several finishes.

Grid Types

Bronze Pencil

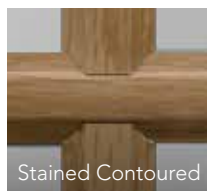

Brass Pencil

Satin Nickel Pencil

Painted Contoured

Stained Contoured

SIMULATED DIVIDED LITES

Simulated Divided Lites (SDL) are reminiscent of old-world craftsmanship when separate pieces of glass were joined together with wooden grids. We deliver that same stunning appearance with high-tech stained fiberglass grids combined with the energy-efficient qualities of the ComforTech™ glass packages.

| Grid Types

CRAFTSMAN

CONTOURED

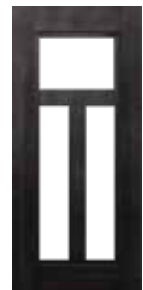

BEVELED GLASS

SIMULATED DIVIDED PANELS

For a stylish and modern look, Simulated Divided Panel fiberglass doors feature wider SDL's (3" and/or 5") applied to the surface of glass on a 460 style Fir door or directly onto the skin of a 001 style Fir door. Numerous configurations and endless paint, glaze or stain colors allow you to create a door design that is contemporary, sophisticated and on-trend.

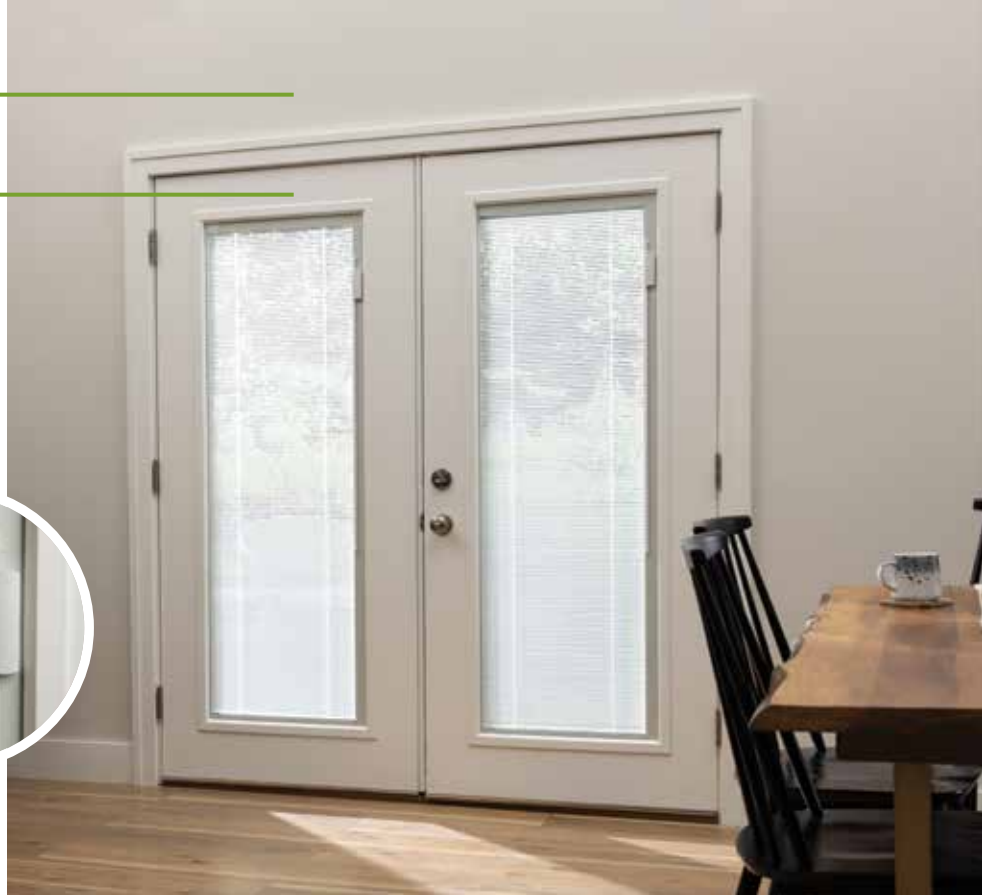

INTERNAL BLINDS

Internal Blinds are constructed with sturdy white aluminum and enclosed in tempered glass for ease of use and maintenance-free care, so there's no dusting needed. Perfect for blocking the sun and restoring privacy on entry doors, sidelites, and patio doors.

Internal Blinds are suitable for entry doors, sidelites and patio doors and carry a **20-Year Warranty**

Blind operator as viewed from the interior of your home.

COLORED INTERNAL BLINDS

Suitable for entry doors and patio doors, Colored Internal Blinds are available in neutral hues – cream, tan, silver, and champagne – and the stylish operator is designed for ease of use. Enclosed in tempered glass, so there's no dust to clean.

10-Year Warranty

Blind operator as viewed from the interior of your home.

Champagne

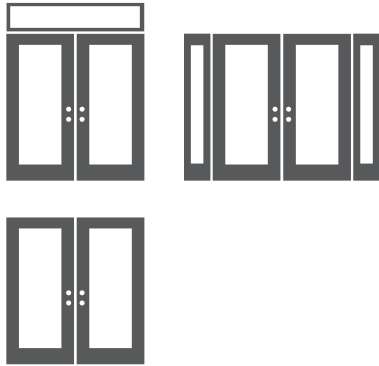

VINYL SLIDING PATIO DOORS

Vinyl Sliding Patio Doors are tested against the most stringent industry standards for air and water infiltration, wind load resistance, ease of operation, forced entry and much more. This means you'll have lower heating and air-conditioning costs, easier cleaning, low maintenance and increased comfort.

FRENCH DOORS

French doors provide a welcoming entrance in a grand and elegant way. Design a simple yet striking entry with a double configuration, or add sidelites and a transom for a more ornate approach.

STYLES/CONFIGURATIONS

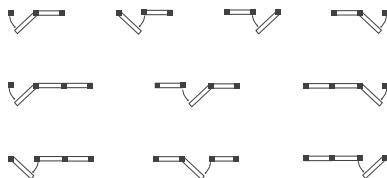

| All door styles are available as a French Door

HINGED PATIO DOORS

Hinged Patio Doors are swinging patio door systems available in 2 or 3-lite units and constructed of the same solid quality Signet® and Heritage™ Fiberglass, and Legacy™ Steel doors as our entry door units.

| Door Swing

GLASS OPTIONS

Let a little light in! ProVia offers several options for glass accents in doors. You can choose a full panel of clear glass for an unobstructed view, privacy glass in a variety of patterns, or beautiful decorative styles and hand-painted designs.

ProVia uses tempered glass in all entry doors, ensuring a hard, strong, heat-resistant panel that is less likely to cause injury if shattered.

“

When you think of most front doors, the glass seems like it's just an afterthought. But our privacy glass patterns, colorful art glass and unique decorative glass designs really make your door stand out and add to the curb appeal.

| Senior Graphic Designer

”

INSPIRATIONS™ ART GLASS

A ProVia exclusive, Inspirations Art Glass is aptly named. Hand-stained designs are expertly crafted by artisans, resulting in a beautiful, inspirational stained glass piece of art.

DESIGNS

The process begins with conceptual design. All Inspirations Art Glass styles originated from the imagination of in-house designers.

RESIN BEAD

The design pattern is created on our computer software and sent to a CNC machine which applies a resin bead to the surface of the glass in one of four stylish colors.

COLOR FILL

Craftsmen hand-apply the color fill inside the resin bead, filling the glass with beautiful hues. A spectrum of beautiful shades is available, empowering you to perfectly portray your design personality.

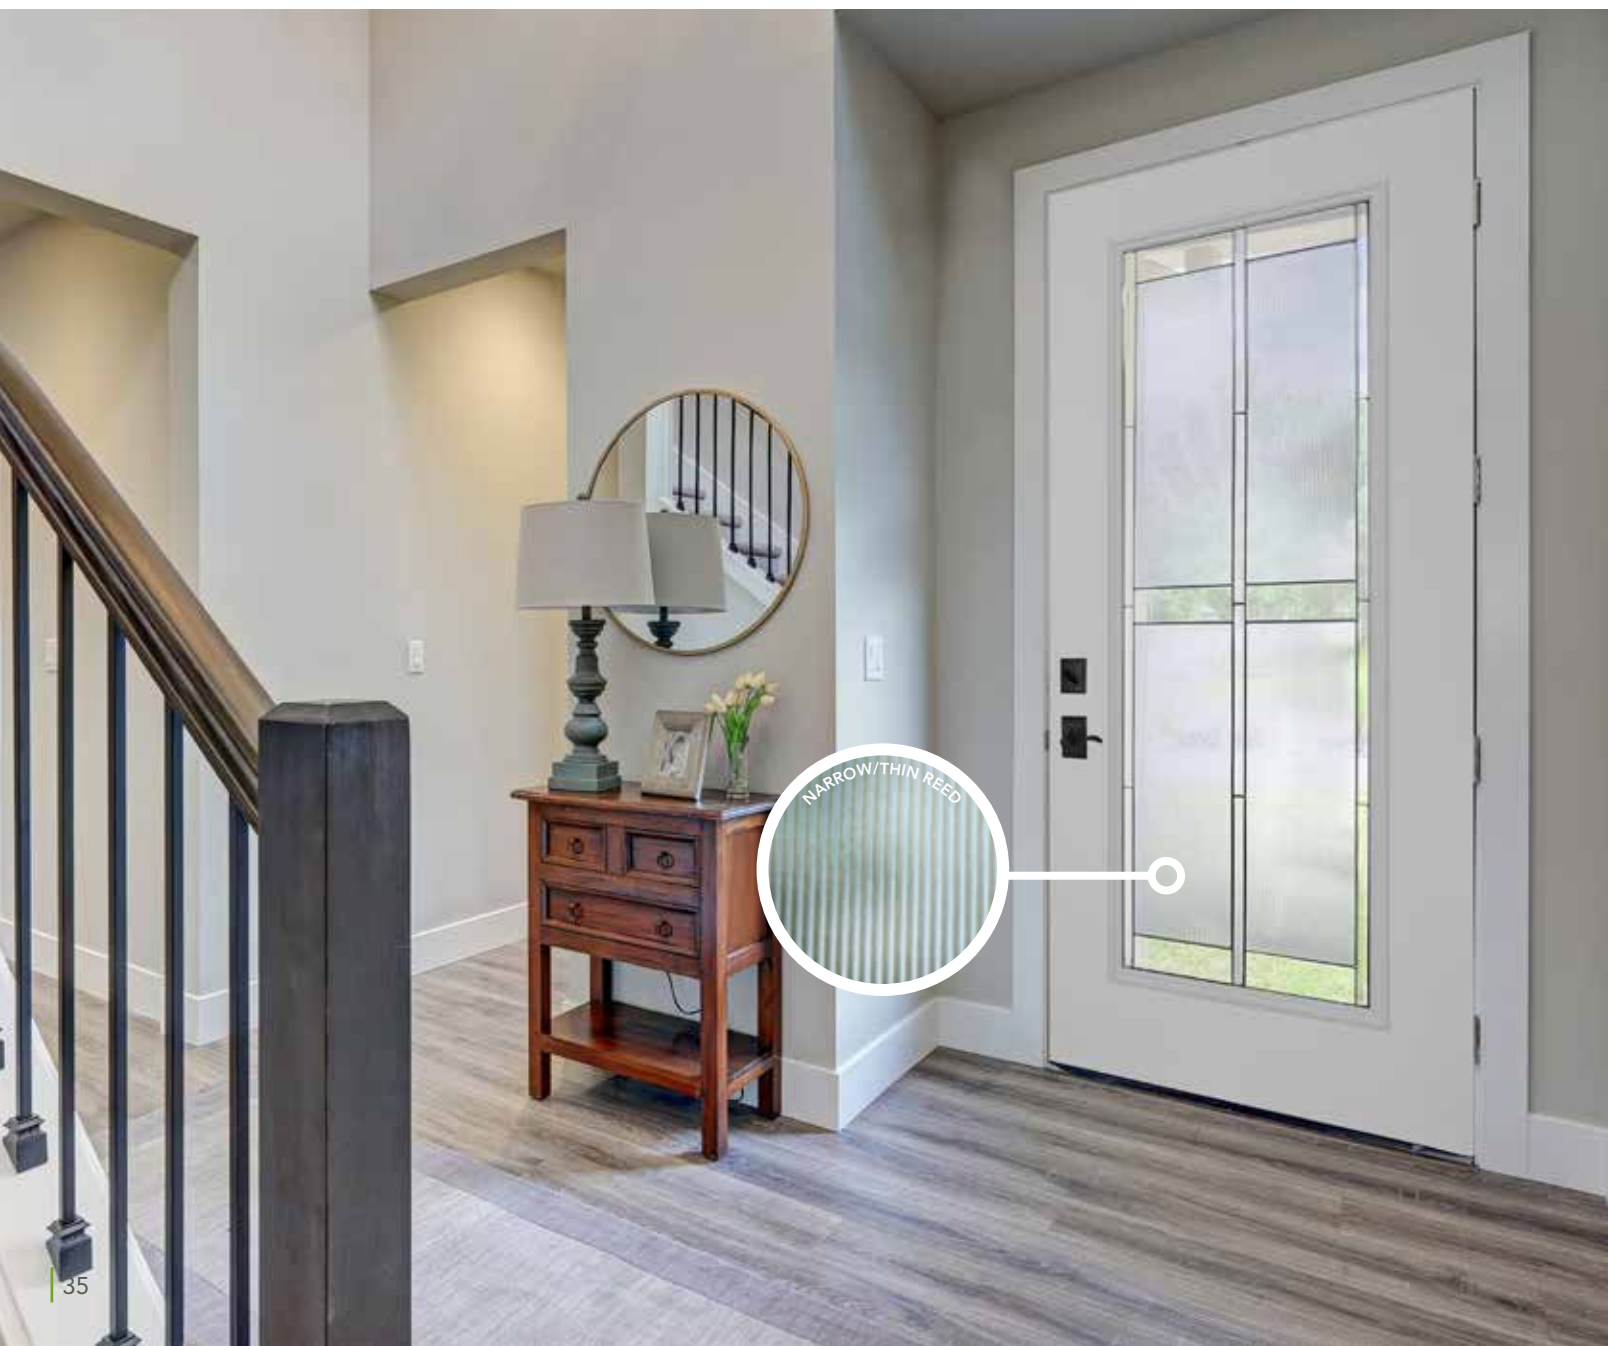

OUR GUARANTEE

The resin bead and color fill are backed by a Lifetime Limited Warranty, and will not fade, blister or peel away from the glass.

DECORATIVE GLASS

Highly skilled craftsmen assemble hand-beveled glass by precisely cutting, mitering, and soldering each component into artistically designed patterns. Decorative glass exhibits visual character through aesthetic imperfections. These “imperfections” mimic the hand-made glass of centuries past.

Decorative glass achieves its personality through these apparent flaws, and no two pieces are ever identical. Each piece of glass is individually soldered together to create a unique decorative core, and any imperfections are characteristic of hand-made glass, adding to its overall charm and beauty.

ProVia has **many decorative glass styles** to fit your style. Visit the ProVia app or website to view all options.

“

People want to know that spending money to improve their home is going to be a good investment. With our products, this is absolutely true because their energy efficiency will save money, and their quality manufacturing means it will last a lifetime and look good in the process.

| Product Manager

”

Color Matters

BEFORE YOU CHOOSE YOUR DOOR COLOR, CONSIDER THE FOLLOWING

When you think of visits from beloved family and friends, what comes to mind? That special moment when guests approach your home and are greeted at the front door with smiles, laughter, and embraces. Front doors are where guests are welcomed with affection and hospitality into your home, and that threshold should reflect your spirit and personality.

ProVia®'s vast selection of wood finishes and paint palettes provides you with ample opportunities to make your entryway a warm, comfortable space. Choosing a finish or color can be a difficult decision, and that's why we have developed our Visualizer Design Tool and Color Lookbook. Your door can be the focal point of your curb appeal, so it's important to choose a style and shade that will offer long-time satisfaction to you.

Signet® doors are available in Cherry and Mahogany woodgrains in rich shades like Toffee, Chestnut, Hazelnut, or Cinnamon, and Oak, Knotty Alder and Fir woodgrains offer shades of Almond, Ginger, Truffle, and Caramel. If you prefer color rather than traditional wood finishes, we offer the whole rainbow and more. Bright reds – Mountain Berry and Vallis; blues and greens – Enzian, Geneva and Forest; earth tones like Sandstone, Clay, and Sterling Gray; elegant darks like Rustic Bronze, Tudor Brown, and Coal Black; and clean whites and tans, like Snow Mist, Café Cream and Sandpiper Beige. And trending colors, like Hibiscus, Robin Egg, Blueberry, Cabernet, and Plum, are ideal for complementing a contemporary, bright exterior or providing a colorful contrast to neutral siding.

To design your signature style, there are no hard and fast rules—beauty is in the eye of the beholder. Be original and try a door with bright paint instead of traditional dark stain on a Tudor-style home. Or, showcase a classic woodgrain on a modern townhouse. The choice is yours!

That said, the following are a few color combinations that are eye-catching and inviting.

Complementary Colors:

Complementary colors are opposite each other on the color wheel, and when paired together, they create dynamic contrast. Complementary colors may also be called "opposite colors."

Monochromatic Colors:

Monochromatic refers to a color scheme that is comprised of variations of one color. The colors range between lighter and darker versions of the base color or hue.

Analogous Colors:

An analogous color scheme creates a rich, monochromatic look. It uses a dominant color paired with supporting colors that are close to or in the same family as the dominant color.

Scan Me

For more color pairing resources.

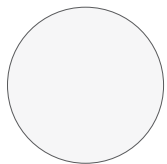

Get Colorful

FINISH OPTIONS

ProVia doors are painted or stained using a multi-step process that includes preparation of the surface, application of stain or paint, layers of UV-resistant clear coat, hand sanding, and oven curing. Specially formulated wood stains are hand-applied with precision and care by experienced craftsmen, ensuring a deep, rich finish. The process results in a beautiful door with an assurance of lasting durability, and a 7 or 10-year warranty (depending on product) against flaking, checking, blistering, or peeling.
